📍 Dharwad, Karnataka, India

Profile

Software Developer with **2+ years of experience** in **designing, developing**, and delivering high-quality **mobile and web applications**. Skilled in **building scalable and efficient solutions** with a strong focus on **problem-solving, quick adaptability**, and aligning technology with business goals. Passionate about **writing clean, maintainable code** and consistently enhancing **system performance**.

Education

KLE Technological University, BE
CGPA | 8.97

2019 – 2023
Hubli, Karnataka

Experience

Chromosis Technologies PVT LTD, Software Engineer, Startup

January 2023 – Current | Hubli-Dharwad, India

Tech Stack: Flutter, Dart, Laravel, PHP, MySQL, Firebase, ReactJs, Hive

- **Developed and maintained** 5+ moderately complex mobile and backend systems, ensuring 99% uptime and enhanced scalability.
- **Built and deployed** secure features for finance and vehicle registration apps, serving 1,000+ active users with third-party integrations (Plaid, Firebase).
- **Developed** VoIP calling features for iOS applications, resulting in a 30% increase in in-app user engagement.
- **Released** 4–5 production-ready mobile apps on the App Store and Play Store and successfully deployed production web applications.
- **Enhanced multilingual support** across apps and web platforms, covering 3+ languages using localization techniques.
- **Collaborated closely with clients** across 3+ projects to gather requirements and deliver robust, business-driven technical solutions.
- **Led code reviews and mentored** 2–3 junior team members, improving team coding standards and delivery timelines.
- **Identified and resolved** critical performance bottlenecks, improving system response time by 25% and boosting scalability for future growth.

Quantum IT Innovation, Internship

October 2022 – December 2022 | Noida, India

- **Built and maintained** scalable backend APIs using Laravel and MySQL to support client-facing web and mobile applications.
- **Designed** efficient database schemas and **optimized** SQL queries to improve system performance and scalability.

Skills

Languages & Frameworks: Dart, Flutter, React JS, PHP (Laravel), Python, C++, JavaScript, HTML, CSS,

Mobile Development: State Management (Provider, Riverpod, MVVM), Firebase, REST APIs, Google Maps

Backend & Databases: MySQL, NoSQL, Firebase Firestore, Laravel

Version Control & DevOps: Git, GitHub

Other: Machine Learning, Data Structures & Algorithms (DSA), OOPs

Soft Skills: Problem-Solving & Debugging, Adaptability & Learning Mindset, Communication, Leadership

Certificates

Python (Basic)  – Hackerrank, **Problem Solving (Basic)**  – Hackerrank, **Python Data Structures**  – Coursera, **Unsupervised Machine Learning**  – Authorized by IBM skills, Coursera

Languages

Hindi, English, Kannada
